

KYOTO UNIVERSITY INTERNATIONAL SYMPOSIUM 2024

on Education and Research in Global Environmental Studies in Asia

This year's theme is :

Measures and Perspectives of Human Resource Development through International Environmental Cooperation

Global environmental studies require multi- and interdisciplinary approaches at the international scale of research and education between countries in Asia and beyond. The symposium provides an opportunity to discuss various measures and perspectives of human resource development, in particular with regards to the international cooperation between Kyoto University and its partner universities.

Dec 3, 2024 (UTC + 7:00 time zone)

Venue: Online + Royal University of Agriculture

Address: Dongkor District, Phnom Penh, Cambodia

FREE
PARTICIPATION FEE

- 15:25-15:35 Closing Remarks (TBA)**
- 15:35-16:00 Campus Tour**
- 17:00- --Reception--**

Poster Session : Research Presentations

This session is dedicated to the presentation of research outcomes. Presenters will deliver 4-minute flash talks, based on their previously submitted posters. Following the presentations, participants will move to individual Zoom breakout rooms for Q&A sessions. Presenters will be organized into several groups, as flash talks are conducted in parallel. Best Poster Awards will be presented, based on anonymous evaluations by faculty members from participating universities. The award is open to students and young researchers who are under the age of 40 as of December 3, 2024.

Panel discussion: Enhancing Educational Curricula Through University Collaboration

Panelists from universities with close ties to the Graduate School of Global Environmental Studies (Kyoto University) will participate in a discussion on human resource development through international collaboration.

Collaborative Session : Research Collaboration Proposals

This session aims to promote personnel exchange and collaborative research across the region. Presenters have the opportunity to introduce programs from their universities, departments, and laboratories, including their own research labs, to recruit master and doctoral students, as well as postdoctoral fellows. Additionally, all participants are welcome to seek collaborators for joint research projects in the future. Following flash talks, participants will join individual Zoom breakout rooms for Q&A sessions.

Executive Committee members :

Hirohide Kobayashi, Izuru Saizen, Kanto Nishikawa, Baars RogerCloud, Kohei Kawaguchi, Yuta Ando, Yumiko Takemae, Kandpal Richa, Riku Tanigawa
Chin Dyna, Chea Chetha, Hor Sanara, Buntong Borarin, Thira Pinn, Thavrak Huon
